

Audit Findings

A-03 and A-04 — Simulated Internal Audit

A-03 — Administrator MFA

Requirement: privileged administrator accounts should use MFA. Evidence: 1 of 8 administrator accounts did not have MFA enabled. Risk/Impact: potential account compromise and misuse of privileged access. Corrective action: enable MFA. Owner: IT Manager. Status: Closed after evidence verification.

A-04 — Password Sharing

Requirement: users must not share passwords with unauthorized persons. Evidence: one employee reported sharing a password during leave coverage. Risk/Impact: unauthorized access and loss of accountability. Corrective action: reset the affected password and conduct security awareness. Owner: IT Manager / HR. Status: Open pending security-awareness evidence.
